

Installing Stata for Students

To install Stata software follow the instructions below. Please note there is a limited number of licenses available, so you are allowed to complete **one** installation of STATA on your computer.

Instructions

1. Download Stata from <https://download.stata.com>

Authorized students were provided Username, Password, License and Activation key via email based on a request from their instructor

2. Follow the instructions outlined in the Installation Guide to install the flavor of Stata designated on your License and Activation Key: <https://www.stata.com/install-guide>
Here you will find helpful step-by-step installation instructions and other resources.
3. Launch Stata and follow the prompts to enter the requested information, including the serial number, code, and authorization located on the License and Activation Key message you received.

Support Information

If you receive an error that the maximum number of downloads or activations has been reached please contact the ITS Service Desk at (518) 442-3700 or askIT@albany.edu.

If there are any issues with Stata after completing installation and activation you should contact [Stata Tech Support](#).
