This is the documentation site for the M.E. Grenander Department of Special Collections & Archives

This documentation is primarily for internal use, incomplete, and constantly in development. The pages here show how we process archival collections and use a variety of different tools.

Please Contact Us if you have any questions.
Working with Digital Records

- Ingesting Digitized Materials
- Accessioning Born-Digital Records
- Processing Ingested Digital Files
- Running in the Background
- UAlbany SIPs and AIPs
