Connecting to UAlbany WiFi - Android

Action

To connect to UAlbany WiFi using an Android-based device, follow the steps below.

Instructions

1. From the main Android menu, select Settings
2. Select Wireless & networks
3. Select WiFi settings
4. Under WiFi networks, select UAlbanyWiFi
5. When the Connect to UAlbanyWiFi screen appears, select the following information
   - EAP method: PEAP
   - Phase 2 authentication: MSCHAPV2
   - CA certificate: N/A, or Use System Certificates if required
   - Client certificate: N/A
   - Identity: your NetID
   - Anonymous identity: leave blank
   - Wireless password: your password
   - Domain (if available): albany.edu
6. Click the Connect button.

You should now be connected to the UAlbanyWiFi wireless network.
