Student Assignment Submission in VoiceThread

Action

Your instructor has the option to set up three types of VoiceThread assignments in Blackboard. You could be requested to complete either a Create assignment, Comment or Watch assignment. For any VoiceThread assignment, you will find instructions, to-do list, and basic status information on the right side of the screen.

Instructions

Complete and Submit your Assignment - Three Assignment Types in Action

1. Create a VoiceThread Assignment
2. Commenting Assignment
3. Watch a VoiceThread Assignment

Submitting Assignments Using the Mobile App

VoiceThread does have a mobile app (scroll to mobile app section) that can be used on your smartphone or tablet. For the best user experience and functionality, keep in mind that we don't typically recommend completing work in Blackboard using a tablet or mobile device.
