Uniprint Services

Uniprint is a service that enables printing from University or personal computers to printers in public spaces on campus. To get started, see Wireless Uniprint Services for setup instructions on your computer or How to Print Documents in the Information Commons for instructions on University computers.

Fees

There is a charge per side of a page for printing on the Uniprint printers:

- **Black and white printers**: 5 cents ($0.05)
- **Color printers**: 50 cents ($0.50)

The Uniprint system works with a print station magnetic card reader that uses your UAlbany ID Card to use your Podium money to print. To add Podium funds, see How to add money to a UAlbany ID Card.
