Access to University Library’s Electronic Reserves

Electronic Reserves and Blackboard

You can easily create your Electronic Reserves page as a link in your Blackboard course, establishing a single point of access for all of your digital course materials. When a link to Electronic Reserves is established in the Blackboard course, students and instructors do not have to log in a separate time when linking to the Electronic Reserves page associated with the Blackboard course.

See how to establish the E-Reserves link in your Blackboard course

Fall 2018 Electronic Reserves Update

The labels for adding a link to Electronic Reserves in Blackboard will be changing. Read more about this on 2018 Updates.

Assistance with Electronic Reserves

If you need assistance with using Electronic Reserves, contact the Library Reserve Staff or visit the Electronic Reserves website for assistance.

Need more help? Contact the ITS Service Desk.
