Software and Applications Distribution

Distribution, installation, and troubleshooting of software and licenses via media, online methods, and license servers.

Check the installed version of Windows

To find out which version of Windows your device is running, follow the steps below.

Find your full computer name

Depending on the exact version of Windows 10 you have, do one of the following:

- ITS Software Catalog
- Restart a Windows 10 Device
- Troubleshooting - General software installation
- University at Albany MatLab License
- Updating Windows 10 to version 21H2
- Updating Windows and macOS from home on University-owned Equipment
- Updating Windows and macOS on Personally-owned Equipment
- Windows 10 21H2 Update Landing Page
- Windows Patch Restart Notification
