Welcome

Welcome to the official University at Albany MakerSpace Wiki! Here you can find a comprehensive collection of resources and information about the equipment in our MakerSpace as well as operating procedures and operating hours. If you cannot find what you are looking for in our website, or have a suggestion for information that should be added to it, feel free to e-mail the icehc-makerspace@albany.edu address with any questions and suggestions!

Info

Mission Statement

The CEHC Makerspace and Drone Lab are collaborative, interdisciplinary, hands-on workspaces for students, faculty, staff and members of the UAlbany community.

Our labs facilitate research, engagement, and excellence in applied learning.

We are committed to diversity and inclusivity in our labs and interns are expected to foster a welcoming environment to all students, faculty and staff, at all times.
